“ To the Family:
Dorothy and I worked together at TolTest and it was always funny to watch her keep management on their toes and watch them back off (memories and chuckles). But also I remember the Dorothy who was lethal with a camera in her hands--no one was safe and she love to send them to you and sometimes you didn't even remember taking it. Her sense of humor never stopped even when she was sick but I always remember her saying "I Love My Boys". She is loved and will be missed.
