“ *You never liked being called “My Little Brother” I never considered you that! I loved the times though when your Pastoral duties would be a bit much and you would call me and say “Hammie I need my Older Brother today”! “I need someone to talk to”! And we would kick it like brothers do, what we talked about stayed with us! I love you and I miss you already. We always think we have tomorrow. You Built your timber so your house is made for you! I. Have to build mine so I can see you again!*

I will miss that infectious smile, my heart is so heavy right now, but I know your battle is over. RIH cousin and study war no more.

Chiquita Bennett - September 10, 2019 at 07:25 AM

Your race is finished now you can rest in the arms of our Lord it's not good by, I'll see you later cuz love always!

“ I was Blessed to have known Charles all my life, starting with Glenwood Grade School. Charles was the Sweetest, Kindest person I've Ever known. He didn't have a mean bone in his body. Whether you were related to him or not he always felt like he was a part of your family. God always requires the best & that's Exactly what Charles was...he was The Best.

Mere words can't express how much he'll be missed but Charles was Truly Loved during his time with us, here on Earth. He's in a better place now, with no more pain or dialysis. He's in a More Beautiful place and I know we'll see each other again.

The Family has my Deepest Condolences. I hope someday soon, with God's Love & Mercy, you'll be able to find Peace.

God Bless the Family.

R.I.H. Charles...

“ *I met Charles many years ago when he first began dialysis. We are not "suppose" to have favorites-- I always felt drawn to Charles, his personality and compassion for others. I am so sorry he has left our world. I do know he is in a much happier and blessed world with no pain, no dialysis and seeing everything in all its beauty. You will be missed my friend. Thank you for the years of laughter , caring and friendship. May your children be blessed with many wonderful memories.*
