MM

“ *My sympathy in your loss. My husband, Darrell, was the manager at Gallant Lumber when he hired Foster. He was so impressed with Foster & spoke of him a lot, which is why I remember his name still. Once on return from a trip to Georgia he brought a huge watermelon to our house, which was a hit with our little children. Darrell left Gallant years later for another job, & he died in 2006. He always thought so highly of Foster & what a good person he was, & highly skilled in his profession. The lumber & building business was Darrell's world also, & he appreciated Foster's talent. My sympathy is with you, Maggi Moulton*
