“Dad, thank you for being to ME a GREAT father, dad, friend, brother, role model, co-worker, mentor and taking me to ur tv repair classes at Macomber Vocational Technical when I was 4-6 years old, then teaching me as we visited our relatives repair things. That was the genesis of my career. Everything I needed to succeed as Manager of Network Engineering, began with the things I learned from you, not only technical, but how to treat people, love my relatives, and not be ruled by money and bling. R.I.P., you have earned it! And since we never used the words good bye, I'm saying C U LATER. Love from your son, Erwin
