“ To Jim and Mary and the Pirtle family I send my healing prayer and love to you all. Jamie will truly be missed. He was more than my friend he was my family J P as we all called him. I had the opportunity share 10 years with him. He moved back to California got a job as supervisor at Comcast cable was one of the Best Men in my wedding. Sonja and I were laughing a little while ago at how they use to talk stuff to each other and come in the house telling me he started it and J P would say yes I did start it this time. He was our friend my partner we all ways had each other back no matter what, so rest in peace my brother we love you and miss you.

“ i was so sorry to hear of the passing of jamie. jamie and my brother kevin hicks were very close friends during their high school and college years. actually they were room-mates during their freshman year at BG. i have so many fond memories of jamie, kevin and ferrell "hanging out" at our house. i used to have the biggest crush on jamie and loved his beautiful baby blue eyes! even though i was almost 6 years younger than them, jamie never treated me like kevins "annoying little sister"! the hicks family will keep your family in our prayers.
